FEBRUARY 2024

Let's Mark Our Calendars!

## March Presentor

Join us on March 7th from 6:30 to 8:00PM at HDSouth! Ceramic artist Sandy Ashbaugh has been working in clay for over 35 years. She uses a traditional hand building method of slab construction and carving, yet achieves a modern aesthetic. Among her best known pieces are those from; her uniquely designed and handcrafted, sake set collection, as well as her lidded vessel series. The latter was published in Lark Craft's "500 Raku", juried into various shows and purchased by public and private institutions..
